

Paper presentation

Last Updated Monday, 20 July 2009

Full Paper Presentation Guidelines

- Papers for oral presentation will have a 30 minutes slot, 20 minutes for presentation and 10 minutes for questions. Please plan for 20 minutes.
- There will be a computer and a projector in every room that you can use for your presentation. The computer will have a connection to Internet, and PowerPoint installed.
- If you plan to bring your own computer (laptop), most laptops automatically handle the voltage (220V) used in Estonia, but you may need a plug-adaptor in order to plug the laptop to the electrical outlets.
